## **Football Scouting Report**

**Player: Maximilian Arnold** 

## Scope

Summarize top 3 actions how to improve the player

## Analysis

1. Reduce the number of yellow cards: The player received 7 yellow cards, which is a high number. This indicates that the player may be overly aggressive or careless in their actions. The player should focus on maintaining discipline and controlling their emotions during games to avoid unnecessary yellow cards. 2. Increase the number of goals scored: The player scored only 2 goals, including those from penalties. To improve their offensive contribution, the player should focus on improving their finishing skills and positioning in the penalty area. They could also work on their off-ball movement to create more scoring opportunities. 3. Improve ball control and reduce miscontrols: The player had 12 miscontrols and was dispossessed 7 times. This suggests that the player may need to work on their ball control skills to maintain possession more effectively. By improving their ball control, the player can help their team maintain possession and create more scoring opportunities.
